

# Green Rights:

## The Human Right to a Healthy World

With special guest, film writer and narrator

### **Silver Donald Cameron**

Air, water, food – these are the sources of life. Without them, we die. And in most nations – more than 180 nations, in fact – citizens are legally entitled to these essential elements of life.

But not in Canada.

This film tells great human stories from around the world—stories of passion and courage and love, stories of parents and grandparents battling on behalf of generations not yet born.
