

Greenhouse Gas (GHG)
Emissions

Turn off the TAP.

Renewable energy like:
> solar, wind, hydro

Efficient, non-polluting
electricity for:
> transportation, homes,
buildings, industry

Regenerative agriculture
and forestry like:
> diverse crops and trees
and soil protection;
eliminate waste

Greenhouse Gases

- Carbon Dioxide
- Methane
- Nitrous Oxide

Louise Comeau, Stacy Howroyd for the
Conservation Council of New Brunswick

Renewable energy

Efficient, non-polluting
electricity

Regenerative agriculture
and forestry

compost
use less plastic
recycle
